Type

Features & Specifications

Application

Retrofit Kits are a great way to modify an existing fixture to save time and energy.

Features

PBRK Series is a complete reflector system, including socket plates for lamp relocation to provide maximum efficiency. Used to delamp from 4 lamps to 1, 2 or 3 T8 or T5 lamps in grid ceiling 2'x2' or 2'x4' troffers or parabolics. This retrofit system allows for removal and discarding of the ballast cover, relocation of lamps, optimizing light output and reducing energy consumption to comply with utility rebate requirements.

Electrical System

Reflector kit is U.L. classified as a ballast cover.

Finish

All reflective surfaces are finished with white polyester powder finish.
