FEATURES & SPECIFICATIONS

APPLICATION — The LMSEB02 is ideal for powering low voltage lighting systems in both landscape and commercial settings. It improves the appearance, functionality, and safety of outdoor spaces such as gardens, pathways, fountains, and patios, while also providing reliable power for commercial applications like outdoor signage, parking lot lighting, building facades, and pathway illumination. Its robust construction ensures performance in the harshest environments. The indoor/outdoor low voltage transformer is encapsulated in a weatherproof steel enclosure. The aluminum powder-coated exterior housing and gasketed captive hinged door make it ideal for the harshest environments. It features a fully encapsulated 300 Watt, 120/12 Volt, dual-circuit transformer.

CONSTRUCTION — Constructed from heavy-duty steel with an aluminum powder-coated enclosure and a captive hinged door.

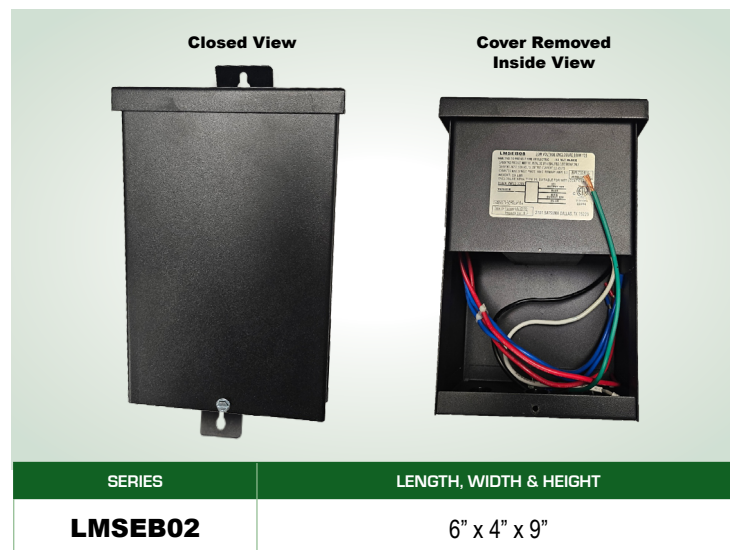

MOUNTING — Keyhole mounts are provided on the backside of the enclosure for quick and secure mounting. Custom finishes are available upon request.

LISTINGS —ETL listed for wet locations.

WARRANTY — The complete luminaire is covered by a 3-year limited warranty.

LMSEB02 SERIES

300W Low Voltage Transformer Enclosure

ORDERING INFORMATION

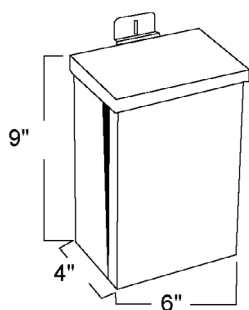

Choose the bold face options for the appropriate luminaire configuration for your application and enter on the line above each fixture attribute. Accessories may be factory installed, depending on the particular accessory chosen, but still be ordered as a separate line item.
